

Scientist, Medicinal Chemistry

Company Overview:

Vividion is a privately held biotechnology company based in San Diego that is leveraging an innovative and proprietary chemical proteomics platform to efficiently discover novel drugs in multiple areas including oncology and immunology. We aim to transform the future of human health through the limitless creation of highly selective small molecule medicines that reach unreachable targets. As an early stage startup company, Vividion is looking for energetic and experienced candidates with a desire to work in a fast-paced and dynamic team environment. We believe that the whole team contributes to the overall mission. We succeed as a team, and we grow as a team.

Job Summary:

As a scientist in the chemistry department, the successful candidate will contribute to the growth of Vividion's proprietary drug discovery platform through the practice of standard and cutting edge synthetic organic chemistry in the context of drug discovery. The preferred candidate will be comfortable balancing the use traditional approaches and exploring novelty on the cutting edge of modern small-molecule drug discovery.

Experience and education requirements:

- PhD +/- post doctoral experience in synthetic organic chemistry
- 0-2 years of relevant pharmaceutical chemistry experience
- Clear understanding of all relevant reaction mechanisms
- A clear command of classical and state of the art synthetic methodology coupled with proven hands-on experience
- Highly productive in the lab along with comfort using modern laboratory technologies

Required Key Attributes:

- Curiosity
- Effective Team Player
- Solid problem-solving and communication skills
- Fearlessness
- Creativity
- Focus, attention to details, and a willingness to challenge dogma

Further Information:

In addition to a competitive compensation package with stock options, Vividion also offers a comprehensive benefits package for our employees and their families, which includes medical, dental, Vision, life, disability insurance.
